EcoWasher® Skeptics Become Believers

“We have owned the ecowasher for over 2 years and would strongly recommend it. **Don't have to worry about clothes fading or being allergic to any detergents.** Plus you save by not having to buy those expensive detergents.”

— Larry

“I have been using your product for over a year and absolutely love it I can't imagine having to use laundry soap ever again. I love the fact that I know my clothes are truly clean, free of viruses and bacteria; that **I'm doing something good for the environment** and saving myself some money in the long run. My life is hectic and there were days that I had so much going on I would forget if I had put the soap in the wash while I was doing the laundry, so I know that I was doubling up on it someday. It's nice to have one less thing to worry about. **Oh and the customer service is excellent,** if you have an issue they are very quick to get things resolved.”

— Jane

“We love our ecowasher. We work long hours and don't always have time to keep laundry going like we'd like. More often than we'd like to admit we'd leave clothes in the washer resulting in a musky smell. With our new Eco washer we no longer have that problem. Also my wife has skin allergies limiting the number of laundry detergents we could use. Did not always like or wondered how clean my clothes were getting with these few detergent. **With EcoWasher we have the cleanest laundry and no allergy issues.** Our clothes are very soft and colors do not fade like they used to.”

— Otis

“We have had our ecowasher now for several years and are very pleased with the results. **The savings from the hot water and detergent costs have been well worth the investment.** We did have trouble with the first two units but the company replaced them without any hassles and all is well with our third unit.”

— Don

It's nice to have one less thing to worry about. Oh and the customer service is excellent, if you have an issue they are very quick to get things resolved.”

— Karen

“We bought our EcoWasher over a year ago when we bought our new washer. We love it. **I was a skeptic but once I used it the clothes smell wonderful and no detergent.** Only use detergent or stain stick on my husbands greasy garage clothes. Would and have recommended it to friends”

— Carla

“**For my family and I the greatest benefit is the health factor.** Not using detergents is a great benefit for us and our family having to deal with skin problems which we found were caused by chemicals in detergents, laundry's especially. **Thanks to EcoWasher this removes the use of these toxins.** In time we will also see the benefit of saving money and that is always a plus as well. The first time we used an EcoWasher we left the clothes out to “mold” as we were told they would not. We found this to be completely accurate. We live in Central California and we would get the mold smell in our laundry if we forgot about it in only a few hours. **With EcoWasher we left it over 12 hours and had no smell what so ever.** We also are into conserving water, being in a five year drought. We are thankful that we can use the wash water to water out plants and trees. EcoWasher again removes any danger from bacteria infested grey water. Our plants are thriving. We are appreciate to Julius for his product.”
